

SOLAIR

Increasing the market implementation of Solar Air-Conditioning systems for small and medium applications in residential and commercial buildings

EIE/06/034/SI2.446612

www.solair-project.eu

Main features

- ▶ Promoting small to medium sized solar air-conditioning appliances
- ▶ Resolving major market obstacles:
limited awareness, information, know-how and application
- ▶ Creating instruments to assist the market growth
- ▶ Addressing suppliers, investors and policy decision makers
- ▶ National and EU-wide dissemination activities

- ▶ Review of available techniques and successful running systems / guidelines
- ▶ Web-based database of best available examples / catalogue
- ▶ Analysis of market potential
- ▶ Preparation and execution of training
- ▶ Regional awareness raising campaigns
- ▶ Information and motivation events / consultation packages / project presentations (national and European level)

Co-operation proposals

- ▶ Collection of further good practice examples
- ▶ Exchange on market analysis
- ▶ Training development and execution
- ▶ Dissemination activities
 - ◆ project presentations at conferences
 - ◆ organisation international workshop (Sustainable Energy Week 2009 ?)
 - ◆ awareness raising events (workshops, round tables, motivation events)
